

DIVYA KUMAR ASTHANA

Java Full-Stack Developer

+91-8005284240 | prathamsahai508@gmail.com | Lucknow, India | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Detail-oriented Java Backend Developer with hands-on experience designing and developing scalable web applications using Core Java, Spring Framework, Spring Boot, Hibernate, and MySQL. Proficient in building and integrating RESTful APIs, implementing backend business logic, database integration, and developing secure applications using JWT authentication. Strong understanding of Object-Oriented Programming, Data Structures and Algorithms, DBMS, Operating Systems, and Computer Networks. Experienced with Maven, Git, Postman, and Agile development practices, with additional exposure to frontend technologies including React.js, HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Programming Languages	Java, SQL, JavaScript
Frontend	HTML5, CSS3, React.js, Bootstrap
Backend	Spring Boot, Hibernate, REST APIs
Databases	MySQL
Cloud	AWS (EC2, S3, IAM, RDS)
Tools	Git, GitHub, Maven, Postman
Core CS	DSA, OOP, DBMS, OS, Networks

PROJECTS

CryptoPlace — Real-Time Cryptocurrency Tracker (React.js | React Hooks | Vercel | Jun 2026) — [Live Demo](#)

- Built CryptoPlace, a React-based cryptocurrency tracking application that displays real-time market data through third-party API integration.
- Implemented search functionality, a responsive UI, and dynamic rendering using React Hooks and component-based development.
- Deployed the application on Vercel and managed source code and version history using GitHub.

Resume Analyser — AI-Powered Resume Evaluation Platform (Java | Spring Boot | React.js | MySQL | Jul 2026) — [Live Demo](#) | [GitHub](#)

- Engineered a full-stack AI-powered resume analyser using Spring Boot, React.js, and MySQL that parses uploaded resumes, evaluates content quality, and generates a resume score with actionable improvement feedback.
- Implemented Two-Factor Authentication (2FA) alongside secure login and registration flows to strengthen account protection and prevent unauthorized access.
- Built REST APIs for resume parsing, skill and keyword extraction, and AI-driven scoring, enabling structured, actionable feedback for job seekers.
- Designed a responsive React.js frontend for resume upload, real-time analysis display, and improvement suggestions, integrated end-to-end with the Spring Boot backend.
- Deployed the application on Render and managed source code, versioning, and collaboration using GitHub.

AI-Powered Resume Generator — AI-Based Resume Builder (React.js | Spring Boot | Groq API | Sep 2026) — [Live Demo](#) | [GitHub](#)

- Designed and developed a full-stack AI-powered resume builder that collects user details — personal info, education, skills, projects, certifications, experience, and career objective — and generates a structured, professional resume.
- Integrated the Groq API (GPT-OSS-20B) for AI-driven resume content generation and formatting.
- Built a React.js frontend communicating with a Spring Boot REST API backend for end-to-end request handling.
- Implemented resume preview and PDF generation/download functionality; deployed the frontend on Vercel and the backend on Render.

EDUCATION

B.Tech in Computer Science Engineering

Babu Banarasi Das Northern India Institute of Technology, Lucknow

Jan 2023 – Jan 2027

CGPA: 6.70/10.0

CERTIFICATIONS AND LICENSES

- Introduction to Cybersecurity — Cisco Networking Academy (2025)
- Artificial Intelligence Fundamentals — IBM SkillsBuild (2025)
- Generative AI Fundamentals — Tata Group (2025)
- Object Oriented Programming in Java — IBM (Issued Aug 2026) — Credential ID: LU8UID3EEKVN
